Overview

In the current knowledge economy and information age, and as organizations recognize the growing need for research on which key policy and strategic decisions are based, the demand for social, market, and marketing research has increased substantially.

In this **Research Analyst** [🔗](#) certificate at **Humber College** [🔗](#), you will focus on all of the major aspects of the research process including research design, information retrieval and evaluation, data collection, analysis and interpretation, and the preparation and presentation of research findings.

Special features of the program include an emphasis on professional, ethical and legal implications when designing research studies; new research technologies for data collection; analysis; presentation; proposal writing; research entrepreneurship; project management; and program evaluation.

Work Permits

Find out all you need to know about work permit regulations for studying part-time (during studies) and full-time (after studies) in this country.

Work while studying in Canada

If you're **from Iran**, you will need a work permit if you want to combine studying with working in Canada.

Here you see the rules for getting a part-time work permit.

You can work part-time on campus at your university . You just need to get a Social Insurance Number (SIN).
